OS-114 Version 2.1 draft h 7/11/06
Emergency Medicine

Transition Admission Orders

use only when diagnosis-specific standing admission orders not applicable

Mandatory

Draw a line through, initial and date all changes.
If generically equivalent medication is not acceptable, then write "brand necessary."

Circles: one and only one. Squares: one, many, or none.

Medications

- Insulin
- See attached Routine Adult Subcutaneous Insulin Orders
- See attached Adult Sliding Scale Subcutaneous Insulin Orders
- See attached Insulin Infusion Orders/Adult Patients (not for DKA; for DKA use DKA orders)
- Analgesics
- Acetaminophen 650 mg PO Q4H prn pain
- Other critical medications (routine daily medications go on regular order sheet)

Labs/Tests

Notify Physician

- if O2 saturation <92%
- if significant change in patient condition
- if systolic BP <90 or >180 or diastolic BP >100
- if respirations >30 or <10
- if temp >101°F (38.4°C)

Consults

Education/Other

- Provide educational materials for smoking cessation
- CHF
- diabetic diet

Admission Status

These orders by DEM physician; must be verified with attending physician by following 9 AM. Call this physician for changes in patient condition, or if further orders needed:

CRNP/PA orders require attending cosignature.

covering physician notified at (time)

PA* CRNP* Resident

ED attending physician (not required for resident signature)

Inpatient attending verifies (required)
